

FROGGY PHONICS

LRN350

Side 1: Beginning and Ending Consonants

Side 2: Beginning and Ending Blends

Contents

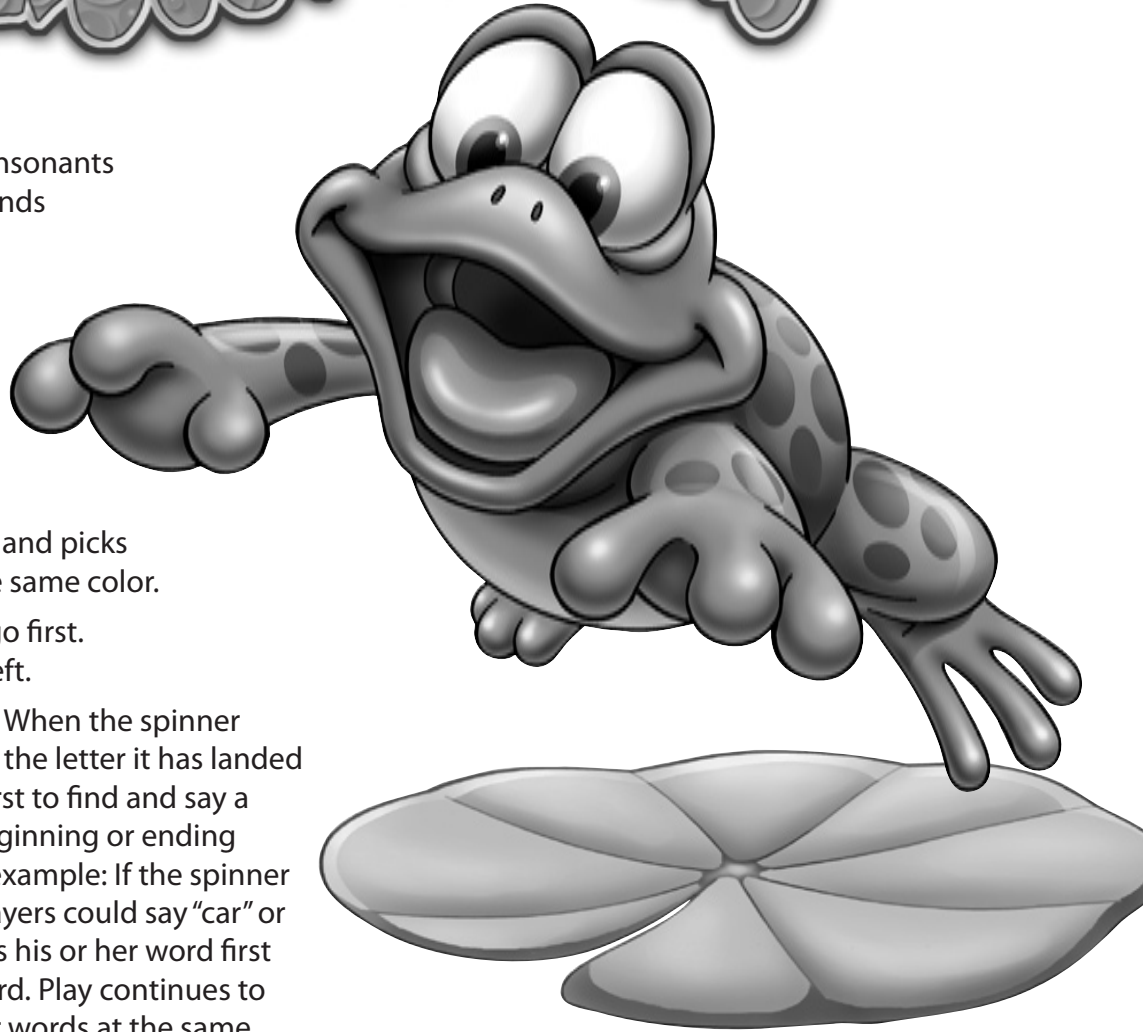

- 2-Sided Game Board
- 2 Phonics Spinners
- 16 Colorful Froggy Markers

Directions—Side 1

1. Each player chooses a quadrant in which to play and picks four froggy markers of the same color.
2. Decide which player will go first. Play will continue to the left.
3. Player 1 spins the spinner. When the spinner stops, Player 1 announces the letter it has landed on. Players try to be the first to find and say a word in their quadrant beginning or ending with that consonant. For example: If the spinner stops on “beginning c,” players could say “car” or “cave.” The player who says his or her word first places a froggy on the word. Play continues to the left. If players say their words at the same time, it is a tie and no one places a froggy. The spinner is spun by the same player again for a retry.
4. The first player to place all four of his or her froggies on the board wins!

Directions—Side 2

1. Each player chooses a quadrant in which to play and picks four froggy markers of the same color.
2. Decide which player will go first. Play will continue to the left.
3. Player 1 spins the spinner. When the spinner stops, Player 1 announces the letters it has landed on. Players try to be the first to say a word in their quadrant with that beginning or ending blend. For example: If the spinner stops

on “beginning sl,” players could say “sled” or “slide.” The player who says his or her word first places a froggy on the word. Play continues to the left. If players say their words at the same time, it is a tie and no one places a froggy. The spinner is spun by the same player again for a retry.

4. The first player to place all four of his or her froggies on the board wins!

Alternate Play

All players may use the entire game board to search for words instead of using only one quadrant. Play continues as before.
