

Follow the Clues to the Library

• Bulletin Board •

by | Joan Hilyer Phelps

Activity Suggestions

- Display the elements of a good mystery using the labeled magnifying glasses provided on the following page. Choose one title familiar to your students, and list examples of each element on the appropriate glass.
- Use the blank magnifying glass pattern and have the students write the title and author of a mystery they have read on the glass and their name on the handle. Display them on the board.
- Have students write clues to their favorite mystery on the front of a magnifying glass and the answer on the flip side. Display on the board by attaching with just one staple so it can be flipped up to reveal the answer.
