

# Turtle Rattle

## Instructions

- Cut these instructions off at the dotted line.
- Reproduce the four turtles below on sturdy tagboard, and cut along the dotted lines to make two strips of turtles (so each strip has two turtles on it). Make enough strips so that every student has one.
- Have students color the turtles in, then fold the strip in half at the solid line.
- Have students tape two of the sides completely shut, making a little pouch.
- Students should then place a few dry beans or lentils in the pouch, then seal the last side with tape.

# Cat and Rat Stick Puppets

## Instructions

- Cut these instructions off at the dotted line.
- Reproduce the cat and rat, enough for each child to have a set.
- Have students color in the cat and rat, and then cut them out.
- Give each student two craft sticks and direct them to glue (or tape) the cat to one stick and the rat to the other.
